## Letter from Oxana Kulakova, Associate Editor for USA Recovery Directory

Dear Friends and Esteemed Colleagues,

Rehab can help addicts - who are often suffering from grief, adjustment to physical illness, or any change in life circumstances that cause distress - work toward a healthy, happy, and sober lifestyle. So as part of our ongoing pursuit to expand the UW Medicine Directory with complementary health products and services, we are excited to invite you to benefit from our exclusive new guide, the USA Recovery Directory!

- According to the National Survey on Drug Use and Health (NSDUH), 27 million Americans aged 12 or older used an illicit drug in the prior 30 days, at a steadily increasing annual rate since 2002, corresponding to about 1 in 10 Americans (10.2 percent). Out of that number, 18.7 million American adults (aged 18 and older) battled a substance use disorder in 2017.
- There were 139.7 million past month alcohol drinkers aged 12 or older, including 60.9 million who were binge alcohol users and 16.3 million who were heavy alcohol users. Almost 75 percent of individuals suffering from a substance use disorder in 2017 struggled with an alcohol use disorder, per NSDUH.
- The Substance Abuse and Mental Health Services Administration (SAMHSA) publishes that in 2017, almost 9 million American adults battled both a mental health disorder and a substance use disorder, or co-occurring disorders.
- Drug and alcohol abuse and addiction is costly to the U.S., exacting more than \$440 billion annually in costs related to healthcare, criminal justice, legal, and lost workplace production/participation costs, the National Institute on Drug Abuse (NIDA) reports.

Oxana Kulakova, LMHCA

This guide is all about creating referrals — we encourage you to use it to search for and connect with quality rehab facilities and top local specialists in your area, listed by state and by county. Check out their specialties and credentials, visit their websites and social media outlets (Blogs, Facebook, YouTube, Twitter, etc) with just one click, and take the first step towards healing, whether it be for your patients, your loved ones or yourself.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Oxana'.

Oxana Kulakova, LMHCA  
Associate Editor  
USA Recovery Directory

**[UW Medicine Transfer Center for Urgent/Emergent Referrals](#)****1.888.731.4791**

The Transfer Center's registered nurses work 24/7 to coordinate the rapid, safe transfer of critically ill or injured patients throughout the region to UW Medicine's facilities. The nurses locate appropriate consulting physicians and facilitate lifesaving conversations within minutes. The center's Virtual Private Network (VPN) enables the specialists to review your patient's electronic medical record and digital radiology images in real time. Together you can develop a care plan and begin your patient's treatment immediately.

**[UW Medicine Contact Center for Non-Emergent Referrals](#)****1.800.489.3627**

The Contact Center assists referring physicians with registering patients and scheduling elective outpatient appointments and procedures across the UW Medicine health system.

**[Medcon Consultation Services](#)****1.800.326.5300**

If you need to confirm a diagnosis or refer your patient for advanced care after speaking to one of our specialists, call Medcon, a 24/7, toll-free service of the UW School of Medicine and its academic medical centers. Consultation coordinators will connect you with the appropriate faculty physician for a consult.

**[About UW Medicine Directory](#)**

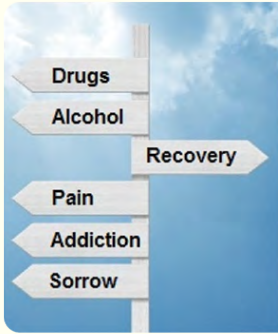

UW Medicine provides primary and specialty care to patients throughout the Pacific Northwest, trains medical professionals and scientists, and conducts biomedical and health services research.

UW Medicine's system includes Harborview Medical Center, Northwest Hospital & Medical Center, Valley Medical Center, University of Washington Medical Center, UW Neighborhood Clinics, UW Physicians, UW School of Medicine and Airlift Northwest. Recently, *U.S. News & World Report* Metropolitan ratings ranked all four of our hospitals in the top ten. UW Medical Center as the No. 1 hospital in the greater Seattle area; Harborview Medical Center as No. 2; and Valley Medical Center and Northwest Hospital & Medical Center tied for No. 6.

Every year, UW Medicine's four hospitals manage more than 68,000 patient admissions and nearly 200,000 emergency visits, while our clinics log more than 1.6 million patient visits. UW Medicine's 2,100 faculty and more than 6,000 volunteer and part-time clinical faculty include four Nobel Laureates, and 33 members of the Institute of Medicine.

*U.S. News & World Report* has also ranked UW's School of Medicine No. 1 in the nation in primary-care training for the past 19 years. The school is the top public recipient of biomedical research funding from the National Institutes of Health and second in NIH funding among all medical schools, public and private.

# TRULY AND BRAVELY YOU.

Addiction and mental health issues take you away from who you are—your hopes and dreams, how you want to live, and what you care about most.

Take the first courageous step to regaining your health, life, and career.

## HOPE IS WITHIN REACH.

For nearly 70 years, we've helped women and men of all ages and from all walks of life find freedom from the disease of addiction. We know from experience that treatment works. Families heal. Careers resume. Life gets better.

## SPECIALIZED CARE

- Legal Professionals
- Health Care Professionals
- First Responders
- Nurses
- Adolescents and Young Adults
- Families and Children
- Older Adults
- Opioid Addiction

## Reach out today. We're here for you.

To learn more or to reach a member of the Referent Relations Team, call **855-348-7018** or email **Hope@HazeldenBettyFord.org**. We're in-network with most insurance providers.

Hazelden Betty Ford Foundation, a national nonprofit organization founded in 1949, helps people reclaim their lives from the disease of addiction. Hazelden Betty Ford Foundation has facilities in California, Minnesota, Oregon, Illinois, New York, Florida, Massachusetts, Colorado and Texas.

*Pax is the Latin Word for Peace.*

It refers to a time in history marked by an absence of war.  
In recovery, we learn to stop fighting ourselves and others.  
We surrender in order to stop the war of addiction.

Our treatment program close to Pasadena was designed to treat the mind, body and spirit of those suffering from addiction. From detox to sober living, Pax House is here to help guide you through early recovery so you can continue your new life, free from drugs for years to come.

### *Pax House Treatment Programs*

Specializing in a complete continuum of care.

- Detoxification
- Residential Treatment
- Aftercare Program
- Outpatient Treatment
- Sober Living

**Want to reach our audiences with your marketing efforts?**

Call us at **(800) 215-3670** or email **programs@usarecoverydirectory.com**

As a progressive healthcare leader working with providers, you know very well the importance of keeping your organization at the forefront of the newest directory technologies.

We would like to invite you to view our **new introduction video** which highlights the benefits enjoyed by the **University of Washington Medicine, St. Luke's Health System** and most recently **Seattle Cancer Care Alliance** - this green technology is proven to enhance your hospital's outreach, efficiency and referral flow, generate revenues, eliminate costs and overhead, all while providing a trackable improved service to your target audience.

***Click here to see our 1+ minute Introduction Video***

Q: Who might be a good person to contact to see if these benefits may also be of interest to your hospital? We would be happy to share a live demo of what we are doing with UW Medicine and other prestigious organizations across the US and Canada.

To request a live demo email [inquiry@clinicalreferraldirectories.com](mailto:inquiry@clinicalreferraldirectories.com)  
or call **(800) 621-9176**
